

Törggelen

What began as a tradition to mark the end of the harvest season has become a beloved culinary and social experience. From October to early December, locals and visitors gather in traditional farm taverns known as Buschenschänken to savour traditional dishes like barley soup, dumplings, ravioli-style Schlutzkrapfen and deep-fried Krapfen pastries paired with freshly pressed grape must and new wine. In Bressanone, Törggelen is about more than just food: a hike through the autumn landscape is part of the experience. The many Törggelen taverns make Bressanone a top destination during the fall season.
